

Sweet Sixteen

Roses are red,
Violets are blue.
Sugar is sweet....

To celebrate sixteen wonderful years of marriage, here are sixteen sweets.

The name of each sweet (as enumerated) can be anagrammed to form the answer word(s) from one of the lines of clues, with two letters left over. (In one case, one of the characters isn't a letter.)

Write the leftover letters to the side of the clue. If the clue line starts with < then write the two leftover letters in alphabetical order; if the clue line starts with > then write the two leftover letters in backwards alphabetical order; if there's no indicator then what to do should be obvious.

___ ___ La Brea __ Pits (3); Honest ___ (3)
